

25th October 2019

Dear Parents/Carers,

To launch our Space topic ('Out of This World'), we have invited Dennis Ashton, the 'Starman,' to visit the Year 5s on **Wednesday 13th November** for the morning. To begin, we will be introduced to the concept of the universe through a spectacular presentation entitled 'Lightspeed Universe.'

After this, we will be designing and creating our own planets using an innovative ICT program and we will finish the morning viewing recent images from outer space in fantastic detail, using 3D glasses.

Dennis Ashton is an expert in astronomy and the children will benefit greatly from his knowledge, expertise and passionate delivery.

To cover the cost of the morning, we are asking for a contribution of £1.50 from each child. Please log on to sQuid to make your payment and give permission for your child to participate.

Yours sincerely,

The Y5 Team
