

How do I do my calculations?

5

Choose 2 calculations from each box. Make sure you write the calculation AND show your workings out. Look back at your target - what do you have to do?

Addition	Subtraction	Multiplication	Division
$9784 + 23437 =$ $801.5 + 433.07 =$	$14809 - 278.9 =$ $66405 - 21395 =$	$271.6 \times 4 =$ $53 \times 14 =$	$21.6 \div 3 =$ $461 \div 22 =$
$568324 + 32,046 =$ $926.8 + 12.084 =$	$4770.4 - 276.16 =$ $35059 - 2983 =$	$164.5 \times 7 =$ $245 \times 26 =$	$138.6 \div 6 =$ $344 \div 25 =$
$997,330 + 39894 =$ $361.72 + 23.004 =$	$423.498 - 246.5 =$ $213.99 - 200.545 =$	$5523.2 \times 3 =$ $2,916 \times 35 =$	$5447.5 \div 5 =$ $6724 \div 26 =$

Challenge - Can you make 3349 using 75, 6, 7, 4, 3 and 2? Use squared and cubed. How close can you get?
