

## Parent information sheet

Use the 100 square to consolidate number recognition, place value, One/ten more and one/ten less.

We have played this game in school so children should be familiar with it.

Currently in Year 1 we have worked with numbers up to 50 with the above skills. Children can explore numbers up to 100 if they are secure with numbers to 50.

Adapt as need be for your child if you think they are finding it too tricky/too easy.

Easier option - Can you find the number 14 etc.

- Start within 20 and work up as they become secure.

Challenging option - I'm thinking of a number...

- It is \_\_\_ less than \_\_\_.

- It has more than 4 tens and less than 6 tens, which numbers could it be?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Colour in the correct number and write the answer.

I'm thinking of a number...

- It has 4 tens and 6 ones = \_\_\_\_\_
- It has 3 tens and 4 ones = \_\_\_\_\_
- It has 5 tens and 0 ones = \_\_\_\_\_
- It has 2 tens and 3 ones = \_\_\_\_\_
- It is one more than 34 = \_\_\_\_\_
- It is one less than 49 = \_\_\_\_\_
- It is one more than 22 = \_\_\_\_\_
- It is ten more than 45 = \_\_\_\_\_
- It is ten less than 28 = \_\_\_\_\_
- It is ten more than 32 = \_\_\_\_\_
- It is ten less than 53 = \_\_\_\_\_
