

Hi my name is Drip the Raindrop but everyone calls me Drip Drop for short. To my right, I have Ralph Raindrop and to my left I have Rooney Raindrop. Right now I am bobbing in the vast ocean.

My journey all started when I was playing happily but suddenly I started to get hotter and hotter until it felt like I was on fire! But then Clever Claudia told me that I was turning into water vapour - we were evaporating! Soon I merged into a cloud and it was like a party of raindrops! What was going to happen next?

Suddenly I realised that I was a huge fluffy cloud and every single raindrop was there. We were all packed like sardines and I could barely move. It was that tight that I could barely believe it. We had condensed.

After that, out of nowhere, I was free falling over the mountains. I asked my friend what was going on. What was going to happen to us next? Who were we going to meet next? I was told that we were precipitating and could end up anywhere!

I raced around meanders, hurtled down streams and evening dodged sheep on my journey. What an adventure it has been! Next I was collected together among my many other raindrop friends.

Splash! I fell back into the water and started to play happily all over again. Oh no, I'm late! We're off ...bye! Here I go again!

Hello - my name is Drippy! I am a raindrop and I want to tell you about my amazing adventure. My buddies call me Drip, short for Drippy. If you want to know more then go onto the next paragraph...

Firstly, I was happily drifting along in the ocean when suddenly the sun came out, then the excitement started to happen! Suddenly I felt my self going up like an air balloon as I touched the clouds. A clever raindrop told me we were evaporating and turning into water vapour.

When I got up, I could not believe my eyes! I could hear thousands of my buddies saying 'Hello.' Even though I was squashed I was freezing cold but it did not stop my excitement as more drops came up and the bigger we got.

Suddenly I felt a slight rumble as some of my buddies were falling. I was so excited. Where was I going to go next? I might go into a puddle or I might land in the sea. Then it was my turn; I went whooshing like a rocket. I was part of precipitation!

Then I landed on top of the mountain which was my first time being on top of a mountain. It was exciting, then I slid down like a rollercoaster into the beautiful sapphire sea. At one point on my journey, I was very nearly drunk and swallowed by a sheep!

Plop! Then I fell into the sea where all my buddies were and what an exciting journey! I will see you later on and I hope you have enjoyed my story. Better go - I have to do the water-cycle all over again. I wonder where I am going to land next? Bye!

Hi my name is Rennie Raindrop but you can call me Rennie for short. I have just had an amazing adventure - let me tell you all about it. Right now, I am bobbing up and down on the vast ocean.

It felt as though I had super powers because I started levitating and rising up to the clouds. I felt free! What was happening? This must be what mum meant when she said that I would become water vapour.

I was evaporating! As I was slowly going up towards the clouds, it started to become colder, colder and colder. Finally, I reached a large cloud and then I asked my smart friend called Jack what was happening. He told me that we had been condensed!

Jack told me that the next thing that would happen to us is that we fall down anywhere. Where would we end up? Also he gave me a parachute and he said hail and snowflakes can come down on you too so watch out! Then we all jumped out of the cloud. It felt like I was sky diving.

After a while, I was near to landing but then I hit a mountain. SPLAT! I was collected with all of my friends and we rolled down the mountain together. Also it looked like we were going to hit a beach. We meandered downhill...

Eventually, after zooming down rivers, racing each other and nearly being a drunk by a car (that would not have been good) we reached the ocean. So here I am ...bobbing up and down waiting for it all to start again!
