Firstly, summarise the first 3 chapters to yourself then answer the following questions.

Ordinary

What sort of 'ordinary' things does August do?

Why does he see himself as ordinary?

Why I Didn't go to School

Why do you think Mom hasn't drawn much recently? Does this give you any clues about her current state of mind?

Do you think Zachary, Alex and Christopher are really good friends? Why?

How I Came to Life

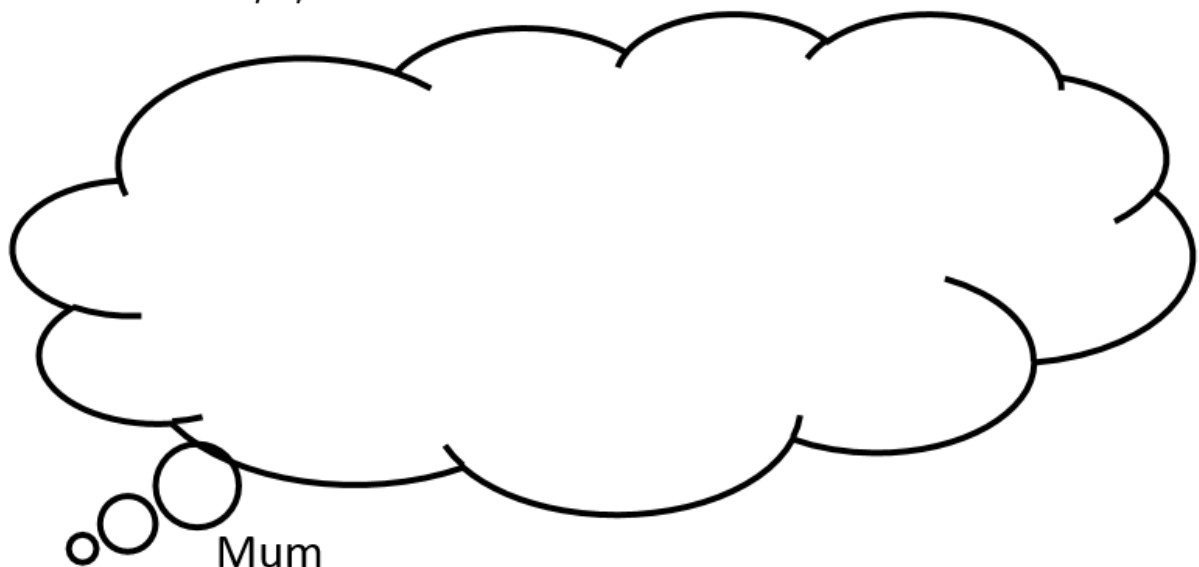

How does your impression of the nurse change throughout the chapter?

(For this type of question, we use the word...

...whereas...

*eg: I used to like Madonna's music **whereas** now I like to listen to Rhianna.)*
