fair

The pennies in my bag can be divided fairly between **two people** with no pennies left over.

How many pennies are in my bag?

7

15

10

How do you know? Can you prove it?

Check each total to find which one can be shared equally into 2 groups.

Activity 1 Which numbers can be shared between 3?

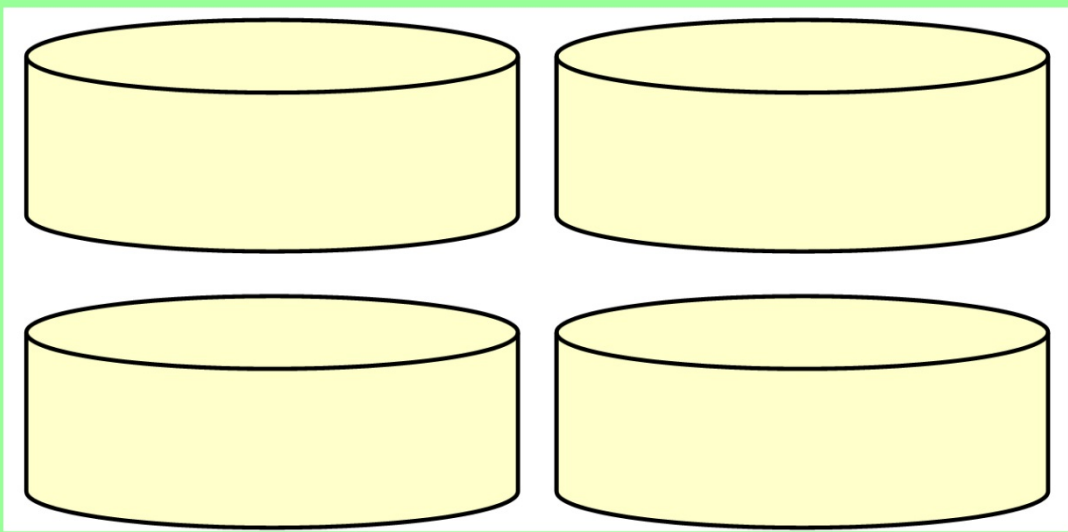

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

Tick the numbers that can be shared by 3.

Use the cubes to help you.

I want to decorate my four cakes fairly. I have 15 star decorations. Can we share them equally?

How many do we need to take away to share equally?

_____ shared equally into 4 is _____.
