

## Game 1: Rhyming relay

Write out a set of rhyming words suitable for your child on little bits of paper. Pop them into a bucket and put them at the finishing line. The aim is to run, skip or hop to collect each rhyming word one at a time from the bucket and bring them back to the start to 'read and rhyme', with help if needed. Once the words have all been collected, they can swap them for a new set, or write their own nonsense rhyming words.

## Game 2: Sound Hoopla

Outdoors, push cricket posts or sticks into the ground and attach sound flashcards securely to them. Play hoopla using small hoops, rings or paper plates with the middles cut out. Keep score by asking children to write down the sounds as they throw hoops over them.

**Older children** - Ask them to write down words containing the sounds for extra points. You could also have a second line a little further back to throw from.

**Younger children** - Provide a quick bingo card of all the sounds written out on card for them to tick off as they play, or write the sounds down for them with their help.

# Real and nonsense words to learn to read this week including the 4 focus sounds:

ew as in screw and as in pew. Discuss how there are two ways of making this sound. ew as in dew, few, new, stew. it sounds as if it has a y at the beginning. or the ew as in crew, threw, grew where it sounds like oo.
