

# Weekly Distance Learning plan

Year group: 4

Date: Summer 2 Week 7

Hi everyone! Hope you are all keeping well.

Well done, you made it to the end of term and if you are still looking here we can assume that you have managed to keep going with the home learning. Fantastic! Feel really proud of yourself for keeping that up. We know that you are ready for a break now, but we thought you might like some ideas (which you can start this week) for over the summer so we have compiled a list of a challenges...

Thank you for a wonderful year. Stay safe – we miss you all and send you our good wishes.

From Miss Gray, Mrs. Lucas and Mr. Griffin.

Subject	Task / Activity	Notes
Maths	Maths challenges	Keep up on tables with hit the button. <a href="http://www.iseemaths.com/maths-games/">http://www.iseemaths.com/maths-games/</a> Check out this site for some maths challenges. <a href="https://nrich.maths.org/">https://nrich.maths.org/</a> Some fantastic challenges on this site.
Reading	Reading challenge	We often get stuck reading the same sort of books. Your reading challenge is to read a fiction book by an author you've never read before. Read a non-fiction book on a subject you know little or nothing about. <a href="https://www.readbrightly.com/50-best-books-9-10-year-olds/">https://www.readbrightly.com/50-best-books-9-10-year-olds/</a>
Writing	Writing challenge	Make a project on a subject of your own choosing. You could make a brochure/ power point/ poster etc. Topics could include about a sport, pet, country, science topic, gardening, cooking etc. Add pictures/ drawings/ information. You can share these on your return to school.
Extra	Learn a new skill	This usually works best if you are prepared to do a little each day. Ideas could be: learn a language (there are apps to help you with this), learn how to bake, sew, play chess, garden, play an instrument, touch type (see BBC bitesize typing programme), animation programme.
	Craft / art activity	We would have been making felt puppets had we been in school. You could make your own, research an artist and do a piece of work in the same style. Make your own tiny Viking style house using twigs/glue/ straw etc. This last one is harder than it sounds.
	Go somewhere new	Investigate places to visit near your home. This doesn't have be a venue that you pay to go to! We can all be more adventurous and find places and parks near our home. Make a review similar to trip advisor that you can share on your return to school and inspire/warn others.
	ICT challenge	Using ICT, show how you completed one of the above challenges. This could be an animation, a power point an edited film etc.
	Sporty challenge	This could be any sport/ exercise of your choice. Ideas could be to run further/ faster, cycle up a particular hill without stopping ( maybe within a certain time), use the PE challenges from week 5 and try to improve on some of them, set yourself an obstacle course around your garden or park and do it regularly, learn a new Tiktok dance each week. These are just ideas- you may have some better ones of your own.

Please do let us know how you get on this week by sending us a picture of your learning.

Email: [y4@ecclesall.sheffield.sch.uk](mailto:y4@ecclesall.sheffield.sch.uk)

Remember – please only send one email each week to your teacher and make sure that it comes from an adults' email address. Please put your child's class into the subject line.
