

Week Beginning 15<sup>th</sup> March  
This half-term our topic is; 'Journeys'

This week is Science Week!

Literacy

We will be continuing to read our Big Book "The Train Ride" this week and we will be starting to write about our journey photographs. In our phonics sessions we will be reading the Phase 3 tricky words and continuing to recap on the digraphs and trigraphs that we have been learning and playing games such as full circle.

Mathematics

In our numeracy sessions we will be focussing on shapes. We will be naming the 2D and 3D shapes and their properties and sorting shapes using different criteria as well as beginning to think of our own criteria for sorting.

Understanding the World

In our session this week we be talking about journeys around the world. We will be discussing how we can travel to places that are far away and looking at how aeroplanes work. We will also be continuing to share our journey photographs.

We are looking forward to having lots of fun with some science experiments this week too!
