

## Week Beginning 13<sup>th</sup> September 2021

This half-term our topic is 'Myself and other animals.'

This week we will continue to support the children as they become more accustomed to the school day and it's routines. We will also encourage the children as they make independent choices and develop friendships.

### Literacy

We will be enjoying talking about our families in small groups as we begin a 'house book' activity, drawing all the members of our family, including our pets, and perhaps writing our name! We will enjoy stories, poetry and singing in our whole class sessions. During phonics we will be exploring rhyme and making a silly soup!

### Mathematics

Our numeracy focus will be counting. We will be counting together in lots of different ways and singing a range of number songs and rhymes.

### Understanding the World

We will be looking at all the photographs of our front doors and trying to guess who will be behind each one!
