

TechClub4Kids

BeeBot Explorer Club

At TechCLub4Kids, we provide Technology (Programming, Science, Engineering) assemblies, workshops, and after school STEM or robotics clubs. Our aim is to give children a lifelong passion for learning and a desire to find things out by themselves through access to high tech equipment in a safe environment.

*The **BeeBot Explore club** is a great way to introduce children in KS1 to the basics of coding which shows them to experience different ways of solving problems. It is a perfect starting point for learning directional language, control and programming in a fun and engaging way.*

*The Club will be run for **5 weeks** from Monday 12th June until 10 July inclusive. It is from **12:15 - 12:45** in the ICT room at school and the total cost is £25, £5 per session (This includes the cost of materials and equipment).Restricted availability of 16 places. It is a first-in, first-served system, payment via the website will guarantee your child a place.*

Please note that once payment has been received, you have reserved the place for your child and we can not issue any refunds. If the school has to cancel the class then a refund will be possible. You can find more information on our website:

www.techclub4kids.com and register and then book your child. If you have any questions or need more explanation, please contact us by email at contact@techclub4kids.com.
