Re: Y6 Leavers' book writing

Dear Parents/Carers,

The EPTFA have kindly agreed to organise a Year Book to celebrate the end of Year 6 and as a keepsake. The children have been asked to submit a paragraph of writing about their favourite memories at Ecclesall Primary School (these can be from any year group, not only Y6).

We would appreciate it if you would help your child with this work as whatever they hand in will be published. School staff will not be checking entries as we want it to represent the children's own work.

We would suggest that pupils think about and include favourite or memorable lessons/subjects, games and playtimes, day trips out of school, representing school in any events, clubs/activities, visitors to school and even the recent residential trip. Planning out their writing will always improve the quality of their final piece. Please see image below as a previous example of an entry.

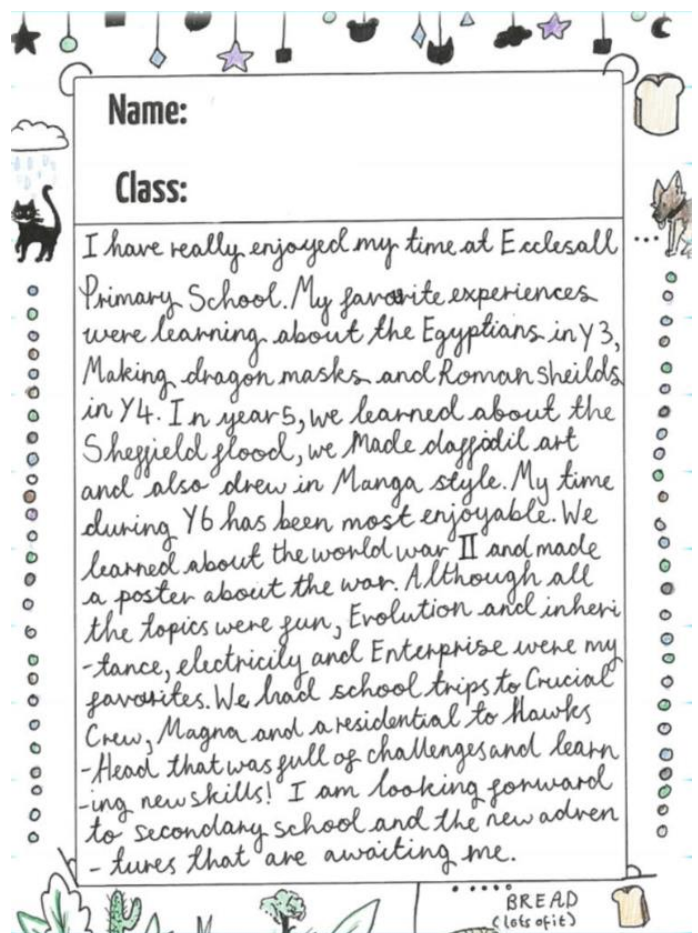

The children have been given a template to write on and a line guide to help with handwriting. Please use the black fine liner pen provided, so that the work will show up clearly once scanned and printed (please return this). Children may wish to decorate the border too (see image below).

The deadline to hand this work in is the morning of **Friday 9th June**.

The EPTFA would really appreciate your support with this.

Kind regards,

The EPTFA and Y6 team

The image shows a handwritten entry on a template. The template has a decorative border with stars, a cat, and a cloud on the left, and a cat and a shirt on the right. The text is written in a cursive script. The entry is as follows:

Name: _____
Class: _____
I have really enjoyed my time at Ecclesall Primary School. My favorite experiences were learning about the Egyptians in Y3, Making dragon masks and Roman shields in Y4. In year 5, we learned about the Sheffield flood, we made daffodil art and also drew in Manga style. My time during Y6 has been most enjoyable. We learned about the world war II and made a poster about the war. Although all the topics were fun, Evolution and inheritance, electricity and Enterprise were my favorites. We had school trips to Crucial Crew, Magna and a residential to Hawks Head that was full of challenges and learning new skills! I am looking forward to secondary school and the new adventures that are awaiting me.

BREAD (lots of it)
