

22nd September 2023

Dear Parents/Carers,

As part of our science topic this half term we would like the children to bring in a shoe box during the week beginning Monday 25th September. They are going to be creating habitats in small groups using art resources.

We would also like to remind you to check Google Classroom on a regular basis as this is where we will post homework suggestions and other relevant information. A science task will be posted over the next couple of days.

We ask that children are reminded that they are not to bring toys into school unless it is for a special show and tell. We have had a few children bringing them into class during lesson time.

Many thanks

The Year 2 Team.
