

Friday, 15th September 2023

Dear Parents/Carers,

On Friday, 10th November 2023, we will be going to Magna Science Centre in Rotherham where the students will get the opportunity to explore its interactive exhibits and fascinating displays to help them explore the wonders of science and the laws of nature. There are over one hundred hands-on exhibits designed to help them explore the four elements air, earth, water and fire and they will also be taking part in **two scientist led workshops**, which are available to schools to enhance the curriculum. These are called 'The forces show' where the pupils get to investigate the invisible world of forces and 'Hot Air Balloon' where the pupils will get to design and build their own models before testing them against each other.

We will be leaving school at 9.00am so children will need to arrive promptly at 8.45am to register. The session finishes at 2.30pm and we will return for the end of the school day. The children will need to bring a packed lunch (no nuts) and drink. School uniform will be required to be worn.

The RAF are sponsoring the visit for 200 local schools, covering admission and exhibit costs. Therefore we are requesting the cost of £8.70p to cover travel to and from Magna. Please log on to ParentPay to pay and give consent for this trip.

Yours sincerely,

The Y6 Team
