

Week Beginning July 15th
This half-term our topic is; 'Minibeasts'

Literacy

In phonics we will be practicing reading and writing, and applying our level 3 and 4 phonics knowledge. We will be segmenting sounds to write words, and blending the sounds together to read. We will also be recapping all of the tricky words we have learnt this year.

Mathematics

We are continuing our learning on addition and subtraction. We will be recognising the symbols for addition and subtraction, and using a number line to count forwards or backwards.

Understanding the World

This week we will be recapping all of our favourite minibeasts, and reviewing all the new facts we have learnt!

Bug Ball

Please come dressed as your favourite minibeast, or wear brightly coloured clothing, on **Wednesday 17th July** for our un-bee-lievably exciting Bug Ball!

We will be carrying out lots of minibeast activities such as playing games, dancing, and sharing minibeast stories and poems. We will also be having a celebratory snack together.
