

Week Beginning February 24th 2025
This half-term our topic is: 'Journeys'

Literacy

We will be learning the trigraphs /air/ and /ear/, as well as recapping previous level 2 and 3 sounds. In writing we will be creating a map of the school grounds and writing a simple sentence about what we can see.

We will be sharing the book 'Walking Through the Jungle' and looking at the journey within the story.

Mathematics

In our Maths sessions this week we will be learning to identify when shapes have other shapes within them. The children will be looking at pictures and identifying how many of certain shapes they can see within each shape. For example - How many rectangles in the door?

Understanding the World

We will be going on a walk around our school and grounds and then talking about the features of our environment. We will be identifying natural features or man-made. We will be using new vocabulary to describe the environment and will be creating our own map of the school.

Key Vocabulary

Environment - the places and things around where we live

Map - a picture used to help us find our way around different places

Feature - something that you can see in the environment

Direction - the position towards which we move or face

Route - A way or direction between places
