

Week Beginning February 2nd 2026
This half-term our topic is; 'Once upon a time...'

Literacy

This week we will be reading "The Gingerbread Man" and focusing on drawing and labelling a story map to retell the story. We will be learning some new songs to help retell the story.

In phonics sessions we will be practising all previously learned Level 3 digraphs and introducing the digraphs **or** and **ur**. We will be reading and spelling lots of words and captions using our new sounds.

This week is National Storytelling Week. We will spend time telling, sharing and listening to stories.

Mathematics

This week we will be learning to combine two groups by adding. We will be adding together the spots on dominoes to find the total. We will also practise using a number line to jump forwards to add.

Understanding the World

We will be carrying out an experiment this week and observing the changes that occur when a gingerbread man is added to water. We will be thinking of scientific words to describe the changes.
