

Programming Club – Mini Programmer

At **TechClub4Kids**, we spark children's curiosity through engaging **Technology, Programming, Science, and Engineering** activities. Our assemblies, workshops, and after-school clubs help develop a **lifelong passion for learning** in a safe, fun, and supportive environment.

💡 About the Mini Programmer Course:

This exciting course is designed for **primary school children** who are **new to coding** or have some basic experience.

Using a fun, block-based programming platform, children will learn to:

- 🎮 Create games
- 🎨 Design animations and comics
- 🎵 Make music

All while building **problem-solving skills, logical thinking, and self-confidence.**

📅 Club Details:

- **Day:** Mondays 3:20 PM – 4:20 PM
- **From :** 20th April to 13th July
- **Cost:** £80 (10 sessions, each session £8)
- **Limited Places:** Only **16 spots available** – first come, first served.

If you'd prefer to reserve a spot with a deposit and pay the balance before term starts, please email us.
