Dear Parents/Guardians,

D&T / maths Taskmaster project

During the last couple of weeks of the year, we are hoping to run a Taskmaster challenge in Y6 which will involve teams building structures. We don't want to give away too many of the details but we do need some materials that you may have in your recycling at home to make this possible.

The items we would be grateful for are:

- Cardboard sheets/packaging
- Plastic water bottles
- Kitchen roll tubes
- Sponge pipe lagging
- Cereal boxes or similar

It would be much appreciated if your child could bring in any items you have available (in a labelled bag if possible) by 3rd July at the latest.

Thank you,

Y6 team
