Dear Parents and Carers

Design-your-own Christmas Card 2025

Sorry for bringing the topic of Christmas up so early!!! However, following on from the success of previous years, the EPTFA are once again organising a design-your-own Christmas Card project in association with Ecclesall Print. With this endeavour we hope to encourage creativity and artistic flair in our children, whilst at the same time raising funds for school and making lovely products that make excellent gifts for family and friends!

The children will be bringing home an artwork template to design their Christmas card on. Instructions on how this should be completed are printed on the back of the template (**make sure you read these as they can really affect the success of the design**).

The deadline for the artwork template to be returned to their classroom teacher is **Monday 5th October**. **Please understand that we will be unable to process any artwork received after this date.** Spare templates will be available to collect from the class teacher.

*******You must have handed in the artwork to your classroom teacher by this deadline.*******

You will then receive a personalised order form (with your child's design on) and from this you can order your items, which will be delivered to school.

There are several products available, which will help us to raise money for the school. The prices are as follows:

- **Christmas Cards** - Pack of 12 cards including envelopes - **£6.00**
- **Gift Labels** - Pack of 16 adhesive labels - **£3.50**
- **Magnet** - **£3.75**
