

18th September 2026

Y2 Owl Day

Dear Parents/Carers,

As part of our creative curriculum topic (Autumn 2 half term) 'Living Things and Their Habitats' and our art project on collage, we have BB Falconry coming into school on the morning of Monday 23rd November with the 'Owl Experience'.

They will bring owls with them and talk about their habitat, life cycle, food chain and growth. Mrs Chester will lead an art class on how to draw owls from real life. Children will be able to ask questions so if there are any they can think of before the visit please get your child to write them down/tell us in advance.

In the afternoon we will extend our knowledge of Matisse and collage by 'Painting with scissors!' where we will make owl collages with natural materials.

There is a small charge of £2.85p for the visit. Please log on to Parent Pay to give your consent and make your payment.

Yours Sincerely

The Year 2 Team
