Week Beginning November 16th 2026

This half-term our topic is;

'Our Community and Celebrations around the World'

Literacy

In Literacy we will continue to write about our celebration photographs. In phonics we will be focusing on the letters j/v/w/x and will be practising the tricky words that we have learnt. We will be using our robot arms to sound out words.

Mathematics

This week in numeracy we will be finding one more and one less up to 5 using a range of stories as a stimulus for our activities.

Understanding the World

In our session this week we will focus on how Chinese New Year is celebrated and how each year of the Chinese zodiac is named after an animal. 2026 is the year of the horse!
